

PERFO CUT

General Information

Perfo Cut is a cold worked tool steel that has high toughness, wear resistances, compressive strength and suitable for general applications.

Chemical Composition

C %	Si %	Mn %	Cr %	Mo %	V %
0.95	1.00	1.40	8.00	2.00	0.30

Application Areas

- Staples and moulds
- Chopping blades
- Indention pulleys
- Blowing moulds
- Rolling cylinders and blades
